

AVERO VIVA

Modern Height adjustable Care bath

Watch product
video!

Timeless design inspired by
modern private bathrooms.

Our AVERO VIVA offers a timeless design, which is reflected in a clear, simple, outer finish and a beautiful inner tub body. The ergonomic shape offers the resident sufficient space in the shoulder area and ensures the use of suitable transfer and bath lifts.

The height adjustable bath tub can be accessed freely, allowing the caregiver to work with all conventional transfer and bath lifts even in the smallest of spaces. The AVERO VIVA is operated using a cable remote control with symbols.

Optional: Integrated branded thermostat with legionella flushing

Optional: Integrated disinfection system

Intuitive hand control with symbols for all functions

Ergonomic inner tub body
with large armrests and handles

Optional: Foldable holding & entry handle made of stainless steel

New! Optional: Change the viewing direction

Domestic bathtub design with guaranteed comfort

The simple and clear shape of the AVERO VIVA is reminiscent of stylish bathtubs in modern private bathrooms. Create a familiar atmosphere during the sensitive bathing process to increase the feel-good factor for your residents!

Generous, ergonomic inner tub body

The AVERO VIVA offers bathers a lot of space in the tub body. Thanks to the large armrests and ergonomic handles, residents enjoy great bathing comfort and a safe feeling!

Numerous options for individual requirements

In addition to our extensive wellness options, which effectively contribute to the well-being of bathers, the AVERO VIVA also offers useful options in terms of safety and hygiene.
