

# Shower Panel DD

**beka** DIFFERENT  
BY DESIGN

## Practical Showering and Disinfecting Solution.

Little space required: The Shower Panel shower system is the ideal addition to mobile shower systems such as shower trolleys or shower chairs from BEKA Hospitec.

The water temperature can be set safely and reliably using the integrated thermostat. The extra-long shower hose offers a very good working area, which is particularly helpful when used with our SINA Comfort shower trolley.

Group 4

Group 5

# FEATURES. COMPATIBILITY.

## **Very little space required**

The shower panel impresses with its very compact dimensions, providing a perfect system solution for showering even in confined spaces.

## **Easy wall mounting and installation**

The shower console is installed via conventional water connections. A power supply is not necessary.

## **Scalding protection and integrated thermostat**

The integrated scalding protection offers maximum safety. Your residents never run the risk of accidentally getting scalded.

- Ideal addition to mobile shower systems
- Combined shower and disinfectant solution
- Simple operation
- No power supply required

Technical data
