

Hydro-Airjet arm-bath II

Hydro-Airjet arm-bath II

... optimal for hydro-therapy of hands and arms

Special developed arm- and hand bath with 14 single adjustable special-hydro jets. Air-admixture with a separate injector-controlled valve.

By the ergonomical arrangement of the jets the treatments especially of hands and wrists as well as of forearm/elbow can be carried out perfectly.

Self-supporting construction made out of shock- and acid-resistant GRP-material. Height stability by levelling aluminium feet. Inclined inside-shape for relaxed arm support.

Thermostatic-controlled fittings for water-inlet and hand shower.

Technical Data

Hydro-Airjet arm-bath II
