

## SENTA PUR L

The combi bathing lift with seat and stretcher function

Watch product video!

With the optional stretcher type modules, SENTA PUR L is also compatible with our Mobility groups 4 and 5.

## The perfect tool for Transfer and bathing processes!

The SENTA PUR L combi bath lifter is the right aid to bathe residents safely and comfortably at any time, depending on their mobility level. Thanks to the optional stretcher modules, the SENTA seating lift can be easily expanded to a stretcher type lift. It is an extremely agile and easy-to-use lifter that can access any modern care bathtub.

The battery-operated electric drive enables the height to be adjusted continuously and therefore without any feelings of discomfort for the resident. With the handheld remote control, the lifter can be operated easily and safely by just one caregiver.

Independent entry possible

Hand control with display of the battery status

Seat with large, coverable hygiene opening

Optional stretcher modules with optional footrest

Easily mobile double castors, two of them with brakes

Optional: side rail for insertion on the seat with safety lock

Optional: digital patient scale

Removable PUR pad for easy cleaning

Optional: Bedpan holder

## ✓ Combi bathing lift with seat and stretcher function

With the SENTA PUR L, nursing staff can comfortably transfer and bathe residents at any time, depending on their mobility. The combi bath lifter can be used very flexibly and is suitable for transfer from the care bed as well as for an independent entry of your residents.

## ✓ Expandable to a stretcher type lift

With the optional stretcher modules, the SENTA PUR L can easily be expanded to a stretcher type of lift. The two wing components can be quickly and easily attached by just one caregiver. This creates great flexibility without having to provide a second lifter.

## ✓ Large hygiene opening & removable PUR pad

The seat of the SENTA PUR L offers a large hygiene opening that can easily be opened and closed with a cover. The removable PUR pad enables easy cleaning and a cost-effective possibility of replacement after years of using.

## ✓ Suitable for all modern care bathtubs

The bath lift is suitable for use with all modern care bathtubs.
